

10th Annual Emirates
Cardiac Society
Conference

ACC Middle East
Conference 2019

ARRHYTHMIAS

www.ECS-ACC.com

OCTOBER 3 – 5, 2019
INTERCONTINENTAL, DUBAI, UAE

GLOBAL EXPERTS. LOCAL LEARNING.

CHALLENGING CASES IN ATRIAL FIBRILLATION MANAGEMENT

- Lifestyle Modification in AF Management: Risk Factors, What Would You Look For, Link to Sleep Apnea and Weight Gain
- Management and Monitoring of Silent AF
- Patient with AF and CHF: Ablation or Antiarrhythmic Therapy? Discussion of CABANA, CASTLE-AF, and Recent Guideline Update

CONTEMPORARY CARDIAC DEVICE THERAPY IN PRACTICE

- Patients with Heart Block and Borderline EF of 40-45%
- Patient with Right Bundle and QRS duration of 150 with Systolic Heart Failure: CRT and Who Benefits and Who Doesn't, Update on Role of CRT, Symptoms and Review of the 2012 CRT Eval Rubric
- HCM and How to Risk Stratify Cardiomyopathies

LEFT ATRIAL APPENDAGE AS A THERAPEUTIC TARGET: WHEN TO IMAGE AND HOW TO GUIDE TREATMENT

- Patient with AFIB and High CHADSVASC Score with Recent Bleed
- Patient with AFIB Mitral Stenosis and Left Atrial Clot
- Patient with AFIB on anticoagulation and recurrent stroke

SYNCOPE: WHEN SHOULD YOU WORRY?

- Acute Presentation in the ER with Syncope: The Work Up They Need, The Role of Scoring and Who to Send Home
- Documented Vasovagal Syncope: Role of Medical Therapy and Pacing
- Patient with Unclear Syncope Evaluation: What Do You Do Next: Tilt Table, Loop Recorder, EP Testing

RAPID FIRE ECG CHALLENGE: PUTTING YOUR INTERPRETATION SKILLS TO THE TEST

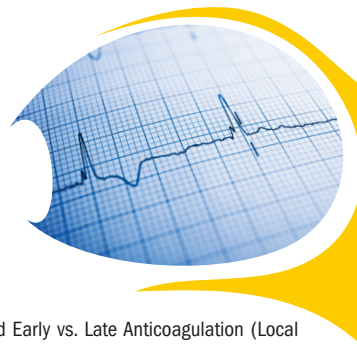

- Rapid fire cases

CASE-BASED APPROACH TO VENTRICULAR ARRHYTHMIAS AND THE PREVENTION OF SUDDEN CARDIAC DEATH

- Frequent PVC and What You Do About It: Risk Stratification, Cardiomyopathy Evaluation, PVC Localization and Ablation
- Patient with Cardiac Arrest: What's a Reversible Cause and When to Put an ICD
- Primary Prevention ICD Case Who Doesn't Need Pacing: Single-Chamber versus S-ICD, When to Anticipate Needing Pacing/CRT in Future

ANTICOAGULATION IN ATRIAL FIBRILLATION: LATEST GUIDELINES AND DATA APPLIED TO CLINICAL CASES

- Acute Management of AF: Peri-Cardioversion imaging, TEE and Anticoagulation, and Early vs. Late Anticoagulation (Local Gulf Based Data on How it is Managed in ER)
- Patient with CAD s/p Stent on ASA and Clopidogrel Develops Atrial Fibrillation: How Would You Manage Anticoagulation/Antiplatelet Therapy?
- AF on Anticoagulation Who Presents with a Bleed: How Do You Handle the Acute Reversal and What Do You Do in the Long Term? LAA Occlusion?
